Do you ever feel like you don't get paid for everything that you do? Unfortunately, there is not a single remedy, but having the right tools for the job and knowing the ways in which they can help prevent re-dos or make those "complimentary" parts of the repair as effortless as possible is a big step towards minimizing free work. Here are just a few products we carry that can help!

USC-37000

**U. S. Chemical & Plastics
Auto Writer Markers - Assorted**

- Featuring a 5mm tip and available in 7 colors. Perfect for versatile applications...Dress up the windshield of your front line with sales messages or use in the service/body shop department for marking repair needs. Doesn't damage the paint of the vehicle!
- Improves in-shop communications by assigning different colors to each department or individual to identify what has been or needs to be done. Productivity increases as there is no wasted time finding files or instructions, therefore increasing your profit margins. Facilitates seamless communication in your shop.
- Writes on steel, glass, aluminum, plastic, wood, rubber, pallet racking... virtually any surface!
- Simple to remove with only Windex or water and a cloth.
- No permanent marking or damage on any cured or non-porous surface.
- Fast drying ink...a rain-resistant barrier forms after approximately 1/2 hour.
- Developed specifically for the auto body & refinishing industry
- Great for marking repairs and estimates
- Available colors: Red, Yellow, Orange, Blue, Pink, Green or White

List: \$63.99

FPR-CMLIGHT

Finish Pro Color Matching Light

• The Finish Pro Color Matching Light is a budget friendly, professional grade color matching light designed to aid in matching not only colors, but metallic size and orientation. With features more at home in high end lab equipment than in a shop grade light, this unique tool will help painters match paint as it was designed to be from the manufacturer. With up to 25 combinations of brightness and temperature, painters can consistently find the best match regardless of environmental conditions – avoiding costly resprays. This light pays for itself in avoiding even one respray.

• Five temperature (Kelvin) settings from 2700-6500K for use in a variety of light settings and to check various tints and flops. Five brightness levels from 300-2400 lumens ensures you can match color in dimly lit to bright shop environments

• Up to 12 hours run time – no down time during business hours!

• Added UV light feature for leak detection in both A/C and coolant systems, as well as UV curing on some UV cured products

• LED Smart display allows users to keep track of current brightness and temperature settings, and battery life

• Intuitive multi-button controls

• Aluminum and impact resistant nylon housing for durability in harsh shop environments

• Includes: Color matching light, wall mount charging bracket, AC adapter, and protective briefcase

List: \$349.99

EMX-78000-E

E-Z Mix

E-Z Dabber Bottle w/ 40 Dabbers
